Pick-to-Light System installed at a truck manufacturer for order picking of axle parts with 276 stockyards in total.

General:
Technical Data
Safety push button: metal design
mechanical durability: 1 mio. cycles

Highlights
Keys: --
Laser engraving: optional
Housing: aluminium, anodized, nature
Protection: front panel IP40

Used display type: R11
Signal lamp: 1 x LED red
Housing dimensions: 140 x 50 mm (w x h)

Used display type: R221
Character height / digits: 20 mm / 2 digits
Signal lamp: 1 x LED red
Housing dimensions: 160 x 50 mm (w x h)

Used display type: R221/M20
Character height / digits: 20 mm / 2 digits
Signal lamp: 1 x LED red, 1 x LED white, 1 x LED blue
Housing dimensions: 260 x 50 mm (w x h)

5

Used display type: M31
Technical Data
Safety push button: metal design
mechanical durability: 1 mio. cycles
Signal lamp: 1 x LED red, 1 x LED white
1 x LED blue
Housing dimensions: 150 x 50 mm (w x h)

Highlights
Keys: --
Laser engraving: " L ", " R "
Housing: Aluminium, eloxiert
Protection: front panel IP40

microSYST Products in Use

mipick

Pick-to-Light System in a press distribution centre with 648 stockyards in total.

Technical Data

Character height / digits:	20 mm / 3 digits
Safety push button:	metal design
	mechanical durability: 1 mio. cycles
Signal lamp:	1 x LED red
Housing dimensions:	200 x 50 mm (w x h)

Highlights

Keys:	membrane keypad with 2 keys
Laser engraving:	optional
Housing:	aluminium, anodized, nature
Protection:	front panel IP40

mipick

Pick-to-Light System for order picking of automotive spare parts with 1000 stockyards in total.

5

Technical Data

Character height / digits:	20 mm / 4 digits
Safety push button:	metal design
	mechanical durability: 1 mio. cycles
Signal lamp:	1 x LED red
Housing dimensions:	175 x 50 mm (w x h)

Highlights

Keys:	membrane keypad with 4 keys
Laser engraving:	optional
Housing:	aluminium, anodized, nature
Protection:	front panel IP40
